60 YEARS OF CRAFTING EXCELLENCE

There are no short cuts on the path to premium. Our passionate team of artisans and innovators are among the world's finest – some with generations of experience. Together, they colour and craft with skill and precision, transforming raw materials into stunning carpets and rugs. It's a dedication that speaks of uncompromising quality at every step of the way.

FARM GATE TO FLOOR

Grown in the rolling green pastures of New Zealand's pristine farmlands, we source the highest quality wool and only to our exacting requirements. Working with this natural, biodegradable product, we batch dye to deliver superior colour performance. The fibre is then processed into yarn and tufted to become warm, luxurious wool carpets and rugs.

HOME TRUTHS ABOUT WOOL

For design and performance, we choose wool. Little else compares to its natural comfort, resilience, design qualities and luxurious beauty. Not only is wool sustainable, but it will also benefit your home and health with its unique properties. Wool works to keep you warm in winter and cool in summer. It's naturally hypoallergenic and can help cleanse air, resist odours and control moisture. Wool is also flame resistant and repels most kinds of stains.

FELTED YARN. AN INNOVATION APART

Among our many innovations, one stands alone. Felted woollen yarn carpets and rugs are a much sought-after Cavalier Bremworth specialty. Using our exclusive felting process in place of wool spinning, we are able to craft a thicker, stronger and more luxurious woollen yarn with brilliant colour capabilities. The result is stunning flooring that offers superior performance and longevity - not to mention truly unique design options that are beautiful to look at and a dream to live on.

GOOD-TO-KNOW CARPET BUYING TIPS

DURABILITY AND QUALITY ASSURANCE

On the back of your carpet sample, look for the Residential Extra Heavy Duty plus Stairs 6 Star rating. This is awarded by the Australian Carpet Classification Scheme (ACCS) – an independent certification body.

NATURAL FIBRE

For carpet with superior design and performance on your floor, wool is the natural choice. Not only is it hard-wearing and luxurious underfoot, wool is hypoallergenic, stain resistant, fire resistant and helps to create a warm, dry and healthy home.

COLOUR

The appearance of colour can change in different environments, so it's important to view your chosen sample under daylight and artificial light before making your final decision. Keep in mind that darker colours can make a room appear smaller, whereas lighter colours can create a sense of spaciousness.
