The benefits of wool

Nature's Miracle Fibre

Soft and luxurious

Throw your shoes off after a busy day and curl your toes into a luxurious 100% wool carpet. Warm, comforting, and soft, wool carpet provides an unmatched sensory experience.

Naturally Resilient

Wool fibre has a unique spiral crimp which means means it's proven to last - a practical option for busy households.

Easy to clean and maintain

The structure of wool fibre has a protective membrane which acts as a natural stain resistant.

Naturally fire resistant

Wool is hard to ignite and slow to burn making it a safe choice for your home.

Nature's Miracle Fibre

100% Sustainable

Wool is a 100% sustainable and renewable fibre.

Can help regulate humidity

Wool absorbs moisture when the atmosphere is damp and releases it when the atmosphere is dry, creating a more comfortable environment that's warmer in the winter and cooler in the summer.

Hypoallergenic

Wool carpets naturally absorb and filter airborne volatile organic compounds (VOCs) - unwanted toxins and odours that can cause irritation.

Noise insulation

Noise pollution can impact on your health, comfort and productivity. Wool carpet helps to improve the acoustics of busy spaces, absorbing sound and softening the volume.

*What makes our carpets
unique?*

Farm gate to floor

Our wool comes from New Zealand farms. Sheep are raised on fertile open pastures that can rise up to the snowline, ideal conditions for growing **clean, white wool** of exceptional quality.

From this natural, biodegradable product, we batch dye the fibre to deliver superior colour performance. The fibre is then processed into yarn and tufted to become **warm, luxurious** wool carpet.

Quality you can trust

- With almost 60 years behind us, our carpet has been proven to perform on the floor.
- But don't take our word for it. All of our carpets have been independently tested by the Australian Carpet Classification Scheme (ACCS) and have achieved the highest rating available
Residential Extra Heavy Duty + Stairs 6 Stars

Helpful tip: Carpet manufacturers and distributors have no influence over what ACCS grading their carpet receives. To find out if a carpet has been independently tested check the label on the back of the sample for an ACCS performance rating and registration number.
